Congratulations on the 70th Anniversary to All China Youth Federation (ACYF)

On the significant occasion of the 70th Anniversary of All China Youth Foundation (ACYF), it gives us great pleasure to extend my warm congratulations and best wishes to the leaders of ACYF and to all who have the goals of the organization at heart and collaborate in their achievement.

The ACYF commitment to the development of the youth of China is not a recent phenomenon, as is witnessed by her long-standing work in favor of local culture and in safeguarding local values, leadership, in youth training and education, and in so many undertakings, great and small, aimed at social development.

In this respect, ACYF will not fail to continue along this path, especially through the effective contribution of the youth to the progress of China and to the advancement of Asian as a whole.

For the last more than 20 years, ACYF has been our great partner in building the voices of youth to the peace in Asian. We have worked together, trained young leadership to be able to face their challenges in the future. We are strong with the support of ACYF in all our programs.

We are pleased that the AYC and ACYF are becoming increasingly close partners. We firmly believe that our organizations will continue to develop dynamic, mutually beneficial relations, and that our joint initiatives in the fields of training leadership, civilization dialogues and Asian Peace Forum will strengthen both organizations. We sincerely look forward for continuing our successful relationship.

The ardent hope that I express on this anniversary occasion is that ACYF will be the agent of its own progress; that, free from unwarranted external pressures, and strong in the sense of solidarity and mutual assistance, AYC will work together for the common good of all.

To All China Youth Federation, we express our best wishes and happy 70th Anniversary

Azizuddin Ahmad
Executive secretary
ASIAN YOUTH COUNCIL
